

For individual activity 2 you all have presented research proposals and now it's time for you to do the analysis and present your results. Even though you performed your analysis very well, if you don't present your findings very well, the end users will not get the maximum benefit of your findings.

Write a comprehensive report including;

- **Cover page**
- **Abstract** (Page limit : 1 page)
✓ The abstract should be a concise description of the problems addressed in your study, the methods of solving them, the results and conclusions.
- **Content**
- **List if Figures and Tables**
- **Introduction** (Page limit: 1 page)
✓ The introduction should contain background of the study, objectives, significance of the study and any other topic that you think that is relevant
- **Literature Review** (Page limit : 1 page)
- **Theory and Methodology** (Page limit : 3 page)
✓ This section should present the theories behind the statistical techniques that you used for your analysis. The methodology should be clear.
- **Data**
✓ This section should contain the variables you used, their descriptions, data preprocessing techniques used (if you have used any)
- **Exploratory Data Analysis**
- **Advanced Analysis**
- **General Discussion and Conclusion** (Page limit : 2 page)
Write in point form
- **References**

Pay attention to page layout, grammar, style of writing, referencing (use APA style) and overall appearance of your report.
